HENDRY 2019 CABERNET SAUVIGNON NAPA VALLEY

“The Hendry Ranch includes parcels of cabernet sauvignon planted in 1974 at the base of Mount Veeder, having survived phylloxera due to their St. George rootstock. This wine blends that fruit with grapes from a neighboring block that they planted in 2006. Immediately luscious, the fruit comes up against hard, earthy tannins that curtail it for now, the wine feeling blunt with extract and needing to unwind. There’s pretty fruit behind all the tannins, waiting to fully emerge.” —J.G. (940 cases) *Winter 2023*
